

## MOBILE APP DEVELOPER

For Hire | February 2016

## TO APPLY

Submit your resume and cover letter to [Jobs@RUHM.com](mailto:Jobs@RUHM.com)

## THE PERFECT APPLICANT

You're the MacGyver of mobile web development – using bits and pieces of new web tech to design something not only powerful, cross-platform, and responsive, but ridiculously sleek and richly intuitive, too. “How’d you do that?” seems to be an anthem saluted regularly at your coding throne. You’re the type of coder who chuckles when people say “that’s impossible” and then effortlessly serves them a cold dish of that-just-happened. Beyond your incredible skill of optimizing speedy sites for mobile, tablet, and desktop, you’re a team player at heart and are ready for something more consistent and collaborative. You will help us create and innovate one of the most user-friendly content marketing tools on the market for our luxury real estate clients — both developers and agents. You’ll collaborate with our Head of Product & Digital Platform interpreting user requirements and translate them into strategically customized web solutions.

## WHO WE ARE

A hybrid of real estate know-why and marketing know-how, RUHM (German for “glory / fame”) is a full-service luxury marketing agency of career artists, real estate consultants, and degreed marketers from various industries who travel the globe packaging and promoting the world’s finest luxury properties and possessions.

## THE REQUIREMENTS

- 5-7 years coding and software design experience
- Bachelor’s degree in Computer Science or equivalent
- Knowledge of Solid OOP and software design
- Experience with Linux/Unix and scripting languages like Python, Perl, shell scripting, Objective-C or Swift, and Cocoa Touch
- Experience with iOS frameworks: Core Data, Core Animation, etc.
- Experience in offline storage, threading, performance tuning
- Familiarity with RESTful APIs to connect iOS applications to back-end services
- Knowledge of web technologies and UI/UX standards
- Understanding of Apple’s design principles and interface guidelines
- Experience with performance and memory tuning with tools (i.e. Instruments and Shark)
- Familiarity with cloud message APIs and push notifications
- Proficient understanding of code versioning tools (i.e., Git, Mercurial or SVN)
- Familiarity with continuous integration

## COMPENSATION

- Competitive salary (depending on experience)
- Potential for bonuses
- Health Benefits / Life Insurance / 401K Option

## HOURS

- Full time (approx. 40 hrs / week)
- Work completed at Irvine office

## TRAITS

- Obsessive debugger / improver
- Willingness to learn new technologies
- Highly collaborative team-player
- Extreme attention to detail
- Ambitious idea generator
- Quickly and clearly communicates ideas
- High values / ethics
